# Maths

# EYFS Progression of skills

Number and Place Value					
Counting					
Nursery- Three and Four-Year- Olds	Mathematics		<ul> <li>Recite numbers past 5.</li> <li>Say one number name for each item in order: 1, 2, 3, 4, 5.</li> <li>Know that the last number reached when counting a small set of objects tells you how many there are in total ('cardinal principle').</li> </ul>		
Reception	Mathematics		<ul><li>Count objects, actions and sounds.</li><li>Count beyond ten.</li></ul>		
ELG	Mathematics Numerical Patterns		Verbally count beyond 20, recognising the pattern of the counting system.		
Identifying, R	epresenting and	Estimating Num	nbers		
Nursery- Three and Four-Year- Olds	Mathematics		<ul> <li>Develop fast recognition of up to 3 objects, without having to count them individually ('subitising').</li> <li>Show 'finger numbers' up to 5.</li> <li>Link numerals and amounts: for example, showing the right number of objects to match the numeral, up to 5.</li> <li>Experiment with their own symbols and marks as well as numerals.</li> </ul>		
Reception	Mathematics		Subitise to 5.     Link the number symbol (numeral) with its cardinal number value.		
ELG	Mathematics	Number	Subitise (recognising quantities without counting) up to 5.		

Reading and Writing Numbers					
Nursery- Three and Four-Year- Olds	Mathematics	<ul> <li>Link numerals and amounts: for example, showing the right number of objects to match the numeral, up to 5.</li> <li>Experiment with their own symbols and marks as well as numerals.</li> </ul>			
Reception	Mathematics	Link the number symbol (numeral) with its cardinal number value.			
Compare and	Order Numbers				
Nursery- Three and Four-Year- Olds	Mathematics	Compare quantities using language: 'more than', 'fewer than'.			
Reception	Mathematics	Compare numbers.			

ELG	Mathematics	Numerical Patterns	Compare quantities up to 10 in different contexts, recognising when one quantity is greater than, less than or the same as the other quantity.		
Understanding	g Place Value				
Reception	Mathematics		<ul> <li>Understand the 'one more than/one less than' relationship between consecutive numbers.</li> <li>Explore the composition of numbers to 10.</li> </ul>		
ELG	Mathematics	Number	Have a deep understanding of numbers to 10, including the composition of each number.		
Solve Problem	Solve Problems				
Nursery- Three and Four-Year- Olds	Mathematics		Solve real world mathematical problems with numbers up to 5.		

Addition and Subtraction					
Mental Calcul	lations				
Reception	Automatically recall number bonds for numbers 0-5 and son to 10.				
ELG	Mathematics Number		<ul> <li>Automatically recall (without reference to rhymes, counting or other aids) number bonds up to 5 (including subtraction facts) and some number bonds to 10, including double facts.</li> </ul>		
Solve Problems					
ELG	Mathematics	Numerical Patterns	Explore and represent patterns within numbers up to 10, including evens and odds, double facts and how quantities can be distributed evenly.		

Measurement					
Describe, Measure, Compare and Solve (All Strands)					
Nursery- Three and Four-Year- Olds	Mathematics	Make comparisons between objects relating to size, length, weight and capacity.			
Reception	Mathematics	Compare length, weight and capacity.			

Telling the Time					
Nursery- Three and Four-Year- Olds	Mathematics	Begin to describe a sequence of events, real or fictional, using words, such as 'first', 'then'			

### **Properties of Shapes**

Recognise 2D and 3D Shapes and their Properties				
Nursery- Three and Four-Year- Olds	Mathematics	<ul> <li>Talk about and explore 2D and 3D shapes (for example, circles, rectangles, triangles and cuboids) using informal and mathematical language: 'sides', 'corners', 'straight', 'flat', 'round'.</li> <li>Select shapes appropriately: flat surfaces for a building, a triangular pattern for a roof, etc.</li> <li>Combine shapes to make new ones – an arch, a bigger triangle, etc.</li> </ul>		
Reception	Mathematics	Select, rotate and manipulate shapes in order to develop spatial reasoning skills.		
Compare and Classify Shapes				
Reception	Mathematics	Compose and decompose shapes so that children can recognise a shape can have other shapes within it, just as numbers can.		

Position and Direction					
Position, Dire	Position, Direction and Movement				
Nursery- Three and Four-Year- Olds	Mathematics	<ul> <li>Understand position through words alone – for example, "The bag is under the table," – with no pointing.</li> <li>Describe a familiar route.</li> <li>Discuss routes and locations, using words like 'in front of' and 'behind'.</li> </ul>			
Reception	Understanding the World	Draw information from a simple map.			
Patterns					
Nursery- Three and Four-Year- Olds	Mathematics	<ul> <li>Talk about and identify the patterns around them. For example, stripes on clothes, designs on rugs and wallpaper. Use informal language like 'pointy', 'spotty', 'blobs', etc.</li> <li>Extend and create ABAB patterns – stick, leaf, stick, leaf.</li> <li>Notice and correct an error in a repeating pattern.</li> </ul>			
Reception	Mathematics	Continue, copy and create repeating patterns.			

Statistics	Statistics					
Record, Prese	Record, Present and Interpret Data					
Nursery-	Mathematics	Experiment with their own symbols and marks, as well				
Three and		as numerals.				
Four-Year-Olds						

### Place value and number

	COUNTING						
Year 1	Year 2	Year 3	Year 4	Year 5	Year 6		
count to and across 100,			count backwards through	interpret negative	use negative numbers in		
forwards and backwards,			zero to include negative	numbers in context, count	context, and calculate		
beginning with 0 or 1, or			numbers	forwards and backwards	intervals across zero		
from any given number				with positive and negative			
				whole numbers, including			
				through zero			
count, read and write	count in steps of 2, 3, and	count from 0 in multiples	count in multiples of 6, 7,	count forwards or			
numbers to 100 in	5 from 0, and in tens from	of 4, 8, 50 and 100;	9, 25 and 1000	backwards in steps of			
numerals; count in	any number, forward or			powers of 10 for any given			
multiples of twos, fives	backward			number up to 1000 000			
and tens							
given a number, identify		find 10 or 100 more or	find 1000 more or less				
one more and one less		less than a given number	than a given number				
		COMPARIN	G NUMBERS				
use the language of: equal	compare and order	compare and order	order and compare	read, write, order and	read, write, order and		
to, more than, less than	numbers from 0 up to	numbers up to 1000	numbers beyond 1000	compare numbers to at	compare numbers up to		
(fewer), most, least	100; use <, > and = signs	Humbers up to 1000	•	least 1 000 000 and	10 000 000 and determine		
(lewer), most, least	100, use  > and = signs		compare numbers with the	determine the value of	the value of each digit		
			same number of decimal places up to two decimal	each digit	(appears also in Reading and		
			places up to two decimal	(appears also in Reading and	Writing Numbers)		
			(copied from Fractions)	Writing Numbers)	,		
	IDENTIFYING, REPRESENTING AND ESTIMATING NUMBERS						
identify and represent	identify, represent and	identify, represent and	identify, represent and				
numbers using objects	estimate numbers using	estimate numbers using	estimate numbers using				
and pictorial	different representations,	different representations	different representations				
representations including	including the number line						
the number line							

READING AND WRITING NUMBERS (including Roman Numerals)						
Year 1	Year 2	Year 3	Year 4	Year 5	Year 6	
read and write numbers	read and write numbers	read and write numbers		read, write, order and	read, write, order and	
from 1 to 20 in numerals	to at least 100 in numerals	up to 1000 in numerals		compare numbers to at	compare numbers up to	
and words.	and in words	and in words		least 1 000 000 and	10 000 000 and determine	
				determine the value of	the value of each digit	
				each digit	(appears also in	
				(appears also in Comparing Numbers)	Understanding Place Value)	
		tell and write the time from	read Roman numerals to	read Roman numerals to		
		an analogue clock, including	100 (I to C) and know that	1000 (M) and recognise		
		using Roman numerals from I	over time, the numeral	years written in Roman		
		to XII, and 12-hour and 24-	system changed to include	numerals.		
		hour clocks (copied from Measurement)	the concept of zero and			
		(copied from Measurement)	place value.			
		UNDERSTANDIN	IG PLACE VALUE			
	recognise the place value	recognise the place value	recognise the place value	read, write, order and	read, write, order and	
	of each digit in a two-digit	of each digit in a three-	of each digit in a four-digit	compare numbers to at	compare numbers up to	
	number (tens, ones)	digit number (hundreds,	number (thousands,	least 1 000 000 and	10 000 000 and determine	
		tens, ones)	hundreds, tens, and ones)	determine the value of	the value of each digit	
				each digit	(appears also in Reading and	
			6 11 6 11	(appears also in Reading and	Writing Numbers)	
			find the effect of dividing a	Writing Numbers)	identify the value of each	
			one- or two-digit number by		digit to three decimal places and multiply and divide	
			10 and 100, identifying the value of the digits in the	recognise and use thousandths and relate them	numbers by 10, 100 and	
			answer as units, tenths and	to tenths, hundredths and	1000 where the answers are	
			hundredths	decimal equivalents	up to three decimal places	
			(copied from Fractions)	(copied from Fractions)	(copied from Fractions)	

	ROUNDING					
Year 1	Year 2	Year 3	Year 4	Year 5	Year 6	
			round any number to the nearest 10, 100 or 1000	round any number up to 1 000 000 to the nearest 10, 100, 1 000, 10 000 and 100 000	round any whole number to a required degree of accuracy	
			round decimals with one decimal place to the nearest whole number (copied from Fractions)	round decimals with two decimal places to the nearest whole number and to one decimal place (copied from Fractions)	solve problems which require answers to be rounded to specified degrees of accuracy (copied from Fractions)	
		PROBLEM	1 SOLVING			
	use place value and number facts to solve problems	solve number problems and practical problems involving these ideas.	solve number and practical problems that involve all of the above and with increasingly large positive numbers	solve number problems and practical problems that involve all of the above	solve number and practical problems that involve all of the above	

### Addition and subtraction

	NUMBER BONDS								
Year 1	Year 2	Year 3	Year 4	Year 5	Year 6				
represent and use number bonds and related subtraction facts within 20	recall and use addition and subtraction facts to 20 fluently, and derive and use related facts up to 100	DAENTAL (							
add and subtract one	add and subtract numbers	add and subtract	CALCULATION	add and subtrast numbers	porform montal				
add and subtract one- digit and two-digit numbers to 20, including zero	using concrete objects, pictorial representations, and mentally, including:  * a two-digit number and ones  * a two-digit number and tens  * two two-digit numbers  * adding three one-digit numbers	numbers mentally, including:  * a three-digit number and ones  * a three-digit number and tens  * a three-digit number and tens		add and subtract numbers mentally with increasingly large numbers	perform mental calculations, including with mixed operations and large numbers				
read, write and interpret mathematical statements involving addition (+), subtraction (-) and equals (=) signs (appears also in Written Methods)	show that addition of two numbers can be done in any order (commutative) and subtraction of one number from another cannot				use their knowledge of the order of operations to carry out calculations involving the four operations				

	WRITTEN METHODS								
Year 1	Year 2	Year 3	Year 4	Year 5	Year 6				
read, write and interpret mathematical statements involving addition (+), subtraction (-) and equals (=) signs (appears also in Mental Calculation)		add and subtract numbers with up to three digits, using formal written methods of columnar addition and subtraction	add and subtract numbers with up to 4 digits using the formal written methods of columnar addition and subtraction where appropriate	add and subtract whole numbers with more than 4 digits, including using formal written methods (columnar addition and subtraction)					
	IN	VERSE OPERATIONS, ESTIM	IATING AND CHECKING ANS	WERS					
	recognise and use the inverse relationship between addition and subtraction and use this to check calculations and solve missing number problems.	estimate the answer to a calculation and use inverse operations to check answers	estimate and use inverse operations to check answers to a calculation	use rounding to check answers to calculations and determine, in the context of a problem, levels of accuracy	use estimation to check answers to calculations and determine, in the context of a problem, levels of accuracy.				

PROBLEM SOLVING								
Year 1	Year 2	Year 3	Year 4	Year 5	Year 6			
solve one-step problems that involve addition and subtraction, using concrete objects and pictorial representations, and missing number problems such as 7 = □ - 9	solve problems with addition and subtraction:  * using concrete objects and pictorial representations, including those involving numbers, quantities and measures  * applying their increasing knowledge of mental and written methods  solve simple problems in a practical context involving addition and subtraction of money of the same unit, including giving change (copied from Measurement)	solve problems, including missing number problems, using number facts, place value, and more complex addition and subtraction	solve addition and subtraction two-step problems in contexts, deciding which operations and methods to use and why	solve addition and subtraction multi-step problems in contexts, deciding which operations and methods to use and why	solve addition and subtraction multi-step problems in contexts, deciding which operations and methods to use and why  Solve problems involving addition, subtraction, multiplication and division			

## Multiplication and division

	MULTIPLICATION & DIVISION FACTS								
Year 1	Year 2	Year 3	Year 4	Year 5	Year 6				
count in multiples of twos, fives and tens (copied from Number and Place Value)	count in steps of 2, 3, and 5 from 0, and in tens from any number, forward or backward (copied from Number and Place Value)	count from 0 in multiples of 4, 8, 50 and 100 (copied from Number and Place Value)	count in multiples of 6, 7, 9, 25 and 1 000 (copied from Number and Place Value)	count forwards or backwards in steps of powers of 10 for any given number up to 1 000 000 (copied from Number and Place Value)					
	recall and use multiplication and division facts for the 2, 5 and 10 multiplication tables, including recognising odd and even numbers	recall and use multiplication and division facts for the 3, 4 and 8 multiplication tables	recall multiplication and division facts for multiplication tables up to 12 × 12						
		MENTAL CALCU	LATION						
		write and calculate mathematical statements for multiplication and division using the multiplication tables that they know, including for two-digit numbers times one-digit numbers, using mental and progressing to formal written methods (appears also in Written Methods)	use place value, known and derived facts to multiply and divide mentally, including: multiplying by 0 and 1; dividing by 1; multiplying together three numbers	multiply and divide numbers mentally drawing upon known facts	perform mental calculations, including with mixed operations and large numbers				
	show that multiplication of two numbers can be done in any order (commutative) and division of one number by another cannot		recognise and use factor pairs and commutativity in mental calculations (appears also in Properties of Numbers)	multiply and divide whole numbers and those involving decimals by 10, 100 and 1000	associate a fraction with division and calculate decimal fraction equivalents (e.g. 0.375) for a simple fraction (e.g. <sup>3</sup> / <sub>8</sub> ) (copied from Fractions)				

	WRITTEN CALCULATION								
Year 1	Year 2	Year 3	Year 4	Year 5	Year 6				
	calculate mathematical statements for multiplication and division within the multiplication tables and write them using the multiplication (×), division (÷) and equals (=) signs	write and calculate mathematical statements for multiplication and division using the multiplication tables that they know, including for two-digit numbers times one-digit numbers, using mental and progressing to formal written methods (appears also in Mental Methods)	multiply two-digit and three-digit numbers by a one- digit number using formal written layout	long multiplication for two-digit numbers	multiply multi-digit numbers up to 4 digits by a two-digit whole number using the formal written method of long multiplication				
				divide numbers up to 4 digits by a one-digit number using the formal written method of short division and interpret remainders appropriately for the context	divide numbers up to 4-digits by a two-digit whole number using the formal written method of short division where appropriate for the context divide numbers up to 4 digits by a two-digit whole number using the formal written method of long division, and interpret remainders as whole number remainders, fractions, or by rounding, as appropriate for the context  use written division methods in cases where the answer has up to two decimal				
					places (copied from Fractions (including decimals))				

	PROPERTIES OF NUMBERS: MULTIPLES, FACTORS, PRIMES, SQUARE AND CUBE NUMBERS							
Year 1	Year 2	Year 3	Year 4	Year 5	Year 6			
			recognise and use factor pairs and commutativity in mental calculations (repeated)	identify multiples and factors, including finding all factor pairs of a number, and common factors of two numbers.  know and use the vocabulary of prime numbers, prime factors and composite (non-prime) numbers  establish whether a number up to 100 is prime and recall prime numbers up to 19	identify common factors, common multiples and prime numbers  use common factors to simplify fractions; use common multiples to express fractions in the same denomination (copied from Fractions)			
				recognise and use square numbers and cube numbers, and the notation for squared ( <sup>2</sup> ) and cubed ( <sup>3</sup> )	calculate, estimate and compare volume of cubes and cuboids using standard units, including centimetre cubed (cm³) and cubic metres (m³), and extending to other units such as mm³ and km³ (copied from Measures)			

	ORDER OF OPERATIONS									
Year 1	Year 2	Year 3	Year 4	Year 5	Year 6					
					use their knowledge of the order of operations to carry out calculations involving the four operations					
	IN'	VERSE OPERATIONS, ESTIMA	TING AND CHECKING ANSW	ERS						
		estimate the answer to a calculation and use inverse operations to check answers (copied from Addition and Subtraction)	estimate and use inverse operations to check answers to a calculation (copied from Addition and Subtraction)		use estimation to check answers to calculations and determine, in the context of a problem, levels of accuracy					

	PROBLEM SOLVING								
Year 1	Year 2	Year 3	Year 4	Year 5	Year 6				
involving multiplication and division, by division, calculating the answer using concrete objects, pictorial representations and arrays with the multiplication division multiplication multiplication multiplication multiplication multiplication multiplication multiplication multiplication division, by division arrays multiplication division, by division arrays multiplication arrays multiplication division, by division arrays multiplication arrays multiplication arrays multiplication division arrays multiplication arrays multiplication division arrays multiplication arrays multiplicat	re problems involving tiplication and sion, using materials, ays, repeated addition, atal methods, and tiplication and division s, including problems ontexts	solve problems, including missing number problems, involving multiplication and division, including positive integer scaling problems and correspondence problems in which n objects are connected to m objects	solve problems involving multiplying and adding, including using the distributive law to multiply two digit numbers by one digit, integer scaling problems and harder correspondence problems such as n objects are connected to m objects	solve problems involving multiplication and division including using their knowledge of factors and multiples, squares and cubes  solve problems involving addition, subtraction, multiplication and division and a combination of these, including understanding the meaning of the equals sign  solve problems involving multiplication and division, including scaling by simple fractions and problems involving simple	solve problems involving addition, subtraction, multiplication and division  solve problems involving similar shapes where the scale factor is known or can be found (copied from Ratio and Proportion)				

## Fractions

COUNTING IN FRACTIONAL STEPS						
Year 1	Year 2	Year 3	Year 4	Year 5	Year 6	
	Pupils should count in fractions up to 10, starting from any number and using the 1/2 and 2/4 equivalence on the number line (Non Statutory Guidance)	count up and down in tenths	count up and down in hundredths			
		RECOGNISIN	G FRACTIONS			
recognise, find and name a half as one of two equal parts of an object, shape or quantity  recognise, find and name a quarter as one of four equal parts of an object, shape or quantity	recognise, find, name and write fractions $\frac{1}{3}$ , $\frac{1}{4}$ , $\frac{2}{4}$ and $\frac{3}{4}$ of a length, shape, set of objects or quantity	recognise, find and write fractions of a discrete set of objects: unit fractions and non-unit fractions with small denominators  recognise that tenths arise from dividing an object into 10 equal parts and in dividing one — digit numbers or quantities by 10.  recognise and use fractions as numbers: unit fractions and non-unit fractions with small	recognise that hundredths arise when dividing an object by one hundred and dividing tenths by ten	recognise and use thousandths and relate them to tenths, hundredths and decimal equivalents (appears also in Equivalence)		
		denominators	S ED A CTIONIC			
		compare and order unit fractions, and fractions with the same denominators	FRACTIONS	compare and order fractions whose denominators are all multiples of the same number	compare and order fractions, including fractions >1	

	COMPARING DECIMALS								
Year 1	Year 2	Year 3	Year 4	Year 5	Year 6				
			compare numbers with the	read, write, order and compare	identify the value of each digit				
			same number of decimal	numbers with up to three decimal	in numbers given to three				
			places up to two decimal	places	decimal places				
			places						
		T	ROUNDING INCLUDING DEC						
			round decimals with one	round decimals with two decimal places	solve problems which require				
			decimal place to the nearest	to the nearest whole number and to	answers to be rounded to				
			whole number	one decimal place	specified degrees of accuracy				
		•	(INCLUDING FRACTIONS, DECIN	· · · · · · · · · · · · · · · · · · ·	6				
	write simple fractions e.g. $\frac{1}{2}$ of 6 = 3 and recognise the equivalence of $\frac{2}{4}$ and $\frac{1}{2}$ .	recognise and show, using diagrams, equivalent fractions with small denominators	recognise and show, using diagrams, families of common equivalent fractions  recognise and write decimal equivalents of any number of tenths or hundredths	identify, name and write equivalent fractions of a given fraction, represented visually, including tenths and hundredths  read and write decimal numbers as fractions (e.g. $0.71 = \frac{71}{100}$ )	use common factors to simplify fractions; use common multiples to express fractions in the same denomination  associate a fraction with division and calculate decimal fraction equivalents (e.g.				
			recognise and write decimal	recognise and use thousandths and relate them to tenths, hundredths and decimal equivalents  recognise the per cent symbol (%) and	0.375) for a simple fraction (e.g. $\frac{3}{8}$ )  recall and use equivalences				
			equivalents to 1/4; 1/2; 3/4	understand that per cent relates to "number of parts per hundred", and write percentages as a fraction with denominator 100 as a decimal fraction	between simple fractions, decimals and percentages, including in different contexts.				

	ADDITION AND SUBTRACTION OF FRACTIONS							
Year 1	Year 2	Year 3	Year 4	Year 5	Year 6			
		add and subtract fractions with the same denominator within one whole (e.g. $\frac{5}{7} + \frac{1}{7} = \frac{6}{7}$ )	add and subtract fractions with the same denominator	add and subtract fractions with the same denominator and multiples of the same number recognise mixed numbers and improper fractions and convert from one form to the other and write mathematical statements > 1 as a mixed number (e.g. $\frac{2}{5} + \frac{4}{5} = \frac{6}{5} = \frac{1}{5}$	add and subtract fractions with different denominators and mixed numbers, using the concept of equivalent fractions			
		MULTIPLICATION AND I	DIVISION OF FRACTIONS					
				multiply proper fractions and mixed numbers by whole numbers, supported by materials and diagrams	multiply simple pairs of proper fractions, writing the answer in its simplest form (e.g. $\frac{1}{4} \times \frac{1}{2} = \frac{1}{8}$ ) multiply one-digit numbers with up to two decimal places by whole numbers			
					divide proper fractions by whole numbers (e.g. $\frac{1}{3}$ ; $\div$ $2 = \frac{1}{6}$ )			

	MULTIPLICATION AND DIVISION OF DECIMALS							
Year 1	Year 2	Year 3	Year 4	Year 5	Year 6			
					multiply one-digit numbers with up to two decimal places by whole numbers			
			find the effect of dividing a one- or two-digit number by 10 and 100, identifying the value of the digits in the answer as ones, tenths and hundredths		multiply and divide numbers by 10, 100 and 1000 where the answers are up to three decimal places			
					identify the value of each digit to three decimal places and multiply and divide numbers by 10, 100 and 1000 where the answers are up to three decimal places			
					associate a fraction with division and calculate decimal fraction equivalents (e.g. 0.375) for a simple fraction (e.g. <sup>3</sup> / <sub>8</sub> )			
					use written division methods in cases where the answer has up to two decimal places			

PROBLEM SOLVING							
Year 1	Year 2	Year 3	Year 4	Year 5	Year 6		
		solve problems that involve all of the above	solve problems involving increasingly harder fractions to calculate quantities, and fractions to divide quantities, including non-unit fractions where the answer is a whole number	solve problems involving numbers up to three decimal places			
			solve simple measure and money problems involving fractions and decimals to two decimal places.	solve problems which require knowing percentage and decimal equivalents of $\frac{1}{2}$ , $\frac{1}{4}$ , $\frac{1}{5}$ , $\frac{2}{5}$ , $\frac{4}{5}$ , and those with a denominator of a multiple of 10 or 25.			

## **Ratio and Proportion**

Ratio and Proportion							
				Year 6			
				solve problems involving the relative sizes of two quantities where missing values can be found by using integer multiplication and division facts			
				solve problems involving the calculation of percentages [for example, of measures, and such as 15% of 360] and the use of percentages for comparison			
				solve problems involving similar shapes where the scale factor is known or can be found			
				solve problems involving unequal sharing and grouping using knowledge of fractions and multiples.			

# Algebra

	EQUATIONS EQUATIONS						
Year 1	Year 2	Year 3	Year 4	Year 5	Year 6		
solve one-step problems that involve addition and subtraction, using concrete objects and pictorial representations, and missing number problems such as $7 = \Box - 9$ (copied from Addition and Subtraction)	recognise and use the inverse relationship between addition and subtraction and use this to check calculations and missing number problems. (copied from Addition and Subtraction)	solve problems, including missing number problems, using number facts, place value, and more complex addition and subtraction. (copied from Addition and Subtraction)  solve problems, including missing number problems, involving multiplication and division, including integer scaling (copied from Multiplication and Division)		use the properties of rectangles to deduce related facts and find missing lengths and angles (copied from Geometry: Properties of Shapes)	express missing number problems algebraically		
	recall and use addition and subtraction facts to 20 fluently, and derive and use related facts up to 100 (copied from Addition and Subtraction)				find pairs of numbers that satisfy number sentences involving two unknowns		
represent and use number bonds and related subtraction facts within 20 (copied from Addition and Subtraction)					enumerate all possibilities of combinations of two variables		

	FORMULAE								
Year 1	Year 2	Year 3	Year 4	Year 5	Year 6				
			Perimeter can be expressed algebraically as 2(a + b) where a and b are the dimensions in the same unit. (Copied from NSG measurement)		recognise when it is possible to use formulae for area and volume of shapes (copied from Measurement)				
		SEQU	ENCES						
sequence events in chronological order using language such as: before and after, next, first, today, yesterday, tomorrow, morning, afternoon and evening (copied from Measurement)	compare and sequence intervals of time (copied from Measurement)  order and arrange combinations of mathematical objects in patterns (copied from Geometry: position and direction)				generate and describe linear number sequences				

		COMPARING AND ESTIMA	ATING		
Year 1	Year 2	Year 3	Year 4	Year 5	Year 6
compare, describe and solve practical problems for:  * lengths and heights [e.g. long/short, longer/shorter, tall/short, double/half]  * mass/weight [e.g. heavy/light, heavier than, lighter than]  * capacity and volume [e.g. full/empty, more than, less than, half, half full, quarter]  * time [e.g. quicker, slower, earlier, later]	compare and order lengths, mass, volume/capacity and record the results using >, < and =		estimate, compare and calculate different measures, including money in pounds and pence (also included in Measuring)	calculate and compare the area of squares and rectangles including using standard units, square centimetres (cm²) and square metres (m²) and estimate the area of irregular shapes (also included in measuring) estimate volume (e.g. using 1 cm³ blocks to build cubes and cuboids) and capacity (e.g. using water)	calculate, estimate and compare volume of cubes and cuboids using standard units, including centimetre cubed (cm <sup>3</sup> ) and cubic metres (m <sup>3</sup> ), and extending to other units such as mm <sup>3</sup> and km <sup>3</sup> .
sequence events in chronological order using language [e.g. before and after, next, first, today, yesterday, tomorrow, morning, afternoon and evening]	compare and sequence intervals of time	estimate and read time with increasing accuracy to the nearest minute; record and compare time in terms of seconds, minutes, hours and o'clock; use vocabulary such as a.m./p.m., morning, afternoon, noon and midnight (appears also in Telling the Time)			

MEASURING and CALCULATING							
Year 1	Year 2	Year 3	Year 4	Year 5	Year 6		
measure and begin to record the following:  * lengths and heights  * mass/weight  * capacity and volume  * time (hours, minutes, seconds)	choose and use appropriate standard units to estimate and measure length/height in any direction (m/cm); mass (kg/g); temperature (°C); capacity (litres/ml) to the nearest appropriate unit, using rulers, scales, thermometers and measuring vessels	measure, compare, add and subtract: lengths (m/cm/mm); mass (kg/g); volume/capacity (I/mI)	estimate, compare and calculate different measures, including money in pounds and pence (appears also in Comparing)	use all four operations to solve problems involving measure (e.g. length, mass, volume, money) using decimal notation including scaling.	solve problems involving the calculation and conversion of units of measure, using decimal notation up to three decimal places where appropriate (appears also in Converting)		
		measure the <b>perimeter</b> of simple 2-D shapes	measure and calculate the perimeter of a rectilinear figure (including squares) in centimetres and metres	measure and calculate the perimeter of composite rectilinear shapes in centimetres and metres	recognise that shapes with the same areas can have different <b>perimeters</b> and vice versa		

	MEASURING and CALCULATING							
Year 1	Year 2	Year 3	Year 4	Year 5	Year 6			
recognise and know the value of different denominations of coins and notes	recognise and use symbols for pounds (£) and pence (p); combine amounts to make a particular value find different combinations of coins that equal the same amounts of money  solve simple problems in a practical context involving addition and subtraction of money of the same	add and subtract amounts of <b>money</b> to give change, using both £ and p in practical contexts						
	unit, including giving change		find the area of rectilinear shapes by counting squares	calculate and compare the area of squares and rectangles including using standard units, square centimetres (cm²) and square metres (m²) and estimate the area of irregular shapes  recognise and use square numbers and cube numbers, and the notation for squared (²) and cubed (³) (copied from Multiplication and Division)	calculate the area of parallelograms and triangles  calculate, estimate and compare volume of cubes and cuboids using standard units, including cubic centimetres (cm³) and cubic metres (m³), and extending to other units [e.g. mm³ and km³].  recognise when it is possible to use formulae for area and volume of shapes			

	TELLING THE TIME							
Year 1	Year 2	Year 3	Year 4	Year 5	Year 6			
tell the time to the hour	tell and write the time to	tell and write the time	read, write and convert					
and half past the hour and	five minutes, including	from an analogue clock,	time between analogue					
draw the hands on a clock	quarter past/to the hour	including using Roman	and digital 12 and 24-hour					
face to show these times.	and draw the hands on a	numerals from I to XII, and	clocks					
	clock face to show these	12-hour and 24-hour	(appears also in Converting)					
	times.	clocks						
recognise and use	know the number of	estimate and read						
language relating to dates,	minutes in an hour and	time with increasing						
including days of the	the number of hours in a	accuracy to the nearest						
week, weeks, months and	day.	minute; record and						
years	(appears also in Converting)	compare time in terms of						
		seconds, minutes, hours						
		and o'clock; use						
		vocabulary such as						
		a.m./p.m., morning,						
		afternoon, noon and						
		midnight						
		(appears also in Comparing						
		and Estimating)						
			solve problems involving	solve problems involving				
			converting from hours to	converting between units				
			minutes; minutes to	of time				
			seconds; years to months;					
			weeks to days					
			(appears also in Converting)					

	CONVERTING							
Year 1	Year 2	Year 3	Year 4	Year 5	Year 6			
	know the number of minutes in an hour and the number of hours in a day. (appears also in Telling the Time)	know the number of seconds in a minute and the number of days in each month, year and leap year	convert between different units of measure (e.g. kilometre to metre; hour to minute)	convert between different units of metric measure (e.g. kilometre and metre; centimetre and metre; centimetre and millimetre; gram and kilogram; litre and millilitre)	use, read, write and convert between standard units, converting measurements of length, mass, volume and time from a smaller unit of measure to a larger unit, and vice versa, using decimal notation to up to			
			read, write and convert time between analogue and digital 12 and 24-hour clocks (appears also in Converting)	solve problems involving converting between units of time	three decimal places solve problems involving the calculation and conversion of units of measure, using decimal notation up to three decimal places where appropriate (appears also in Measuring and Calculating)			
			solve problems involving converting from hours to minutes; minutes to seconds; years to months; weeks to days (appears also in Telling the Time)	understand and use equivalences between metric units and common imperial units such as inches, pounds and pints	convert between miles and kilometres			

	IDENTIFYING SHAPES AND THIER PROPERTIES						
Year 1	Year 2	Year 3	Year 4	Year 5	Year 6		
recognise and name common 2-D and 3-D shapes, including:  * 2-D shapes [e.g. rectangles (including squares), circles and triangles]  * 3-D shapes [e.g. cuboids (including cubes), pyramids and spheres].	identify and describe the properties of 2-D shapes, including the number of sides and line symmetry in a vertical line  identify and describe the properties of 3-D shapes, including the number of edges, vertices and faces  identify 2-D shapes on the surface of 3-D shapes, [for example, a circle on a cylinder and a triangle on a pyramid]		identify lines of symmetry in 2-D shapes presented in different orientations	identify 3-D shapes, including cubes and other cuboids, from 2-D representations	recognise, describe and build simple 3-D shapes, including making nets (appears also in Drawing and Constructing)  illustrate and name parts of circles, including radius, diameter and circumference and know that the diameter is twice the radius		
		DRAWING AND	CONSTRUCTING				
		draw 2-D shapes and make 3-D shapes using modelling materials; recognise 3-D shapes in different orientations and describe them	complete a simple symmetric figure with respect to a specific line of symmetry	draw given angles, and measure them in degrees (°)	draw 2-D shapes using given dimensions and angles recognise, describe and build simple 3-D shapes, including making nets (appears also in Identifying Shapes and Their Properties)		

		COMPARIN	NG AND CLASSIFYING		
Year 1	Year 2	Year 3	Year 4	Year 5	Year 6
	compare and sort common 2-D and 3-D shapes and everyday objects		compare and classify geometric shapes, including quadrilaterals and triangles, based on their properties and sizes	use the properties of rectangles to deduce related facts and find missing lengths and angles	compare and classify geometric shapes based on their properties and sizes and find unknown angles in any triangles, quadrilaterals, and regular polygons
				distinguish between regular and irregular polygons based on reasoning about equal sides and angles	
			ANGLES		
		recognise angles as a property of shape or a description of a turn		know angles are measured in degrees: estimate and compare acute, obtuse and reflex angles	
		identify right angles, recognise that two right angles make a half-turn, three make three quarters of a turn and four a complete turn; identify whether angles are greater than or less than a right angle	identify acute and obtuse angles and compare and order angles up to two right angles by size	identify:  * angles at a point and one  whole turn (total 360°)  * angles at a point on a straight  line and ½ a turn (total 180°)  * other multiples of 90°	recognise angles where they meet at a point, are on a straight line, or are vertically opposite, and find missing angles
		identify horizontal and vertical lines and pairs of perpendicular and parallel lines			

## Geometry: Position and direction

POSITION, DIRECTION AND MOVEMENT							
Year 1	Year 2	Year 3	Year 4	Year 5	Year 6		
describe position,	use mathematical		describe positions on a	identify, describe and	describe positions on the		
direction and movement,	vocabulary to describe		2-D grid as coordinates in	represent the position of a	full coordinate grid (all		
including half, quarter and	position, direction and		the first quadrant	shape following a	four quadrants)		
three-quarter turns.	movement including			reflection or translation,			
	movement in a straight		describe movements	using the appropriate	draw and translate simple		
	line and distinguishing		between positions as	language, and know that	shapes on the coordinate		
	between rotation as a		translations of a given unit	the shape has not	plane, and reflect them in		
	turn and in terms of right		to the left/right and	changed	the axes.		
	angles for quarter, half		up/down				
	and three-quarter turns						
	(clockwise and						
	anti-clockwise)						
			plot specified points and				
			draw sides to complete a				
			given polygon				
		PAT	TERN				
	order and arrange						
	combinations of						
	mathematical objects in						
	patterns and sequences						

### **Statistics**

INTERPRETING, CONSTRUCTING AND PRESENTING DATA					
Year 1	Year 2	Year 3	Year 4	Year 5	Year 6
	interpret and construct	interpret and present data	interpret and present	complete, read and	interpret and construct
	simple pictograms, tally	using bar charts,	discrete and continuous	interpret information in	pie charts and line graphs
	charts, block diagrams and	pictograms and tables	data using appropriate	tables, including	and use these to solve
	simple tables		graphical methods,	timetables	problems
			including bar charts and		
			time graphs		
	ask and answer simple				
	questions by counting the				
	number of objects in each				
	category and sorting the				
	categories by quantity				
	ask and answer questions				
	about totalling and				
	comparing categorical				
	data				
SOLVING PROBLEMS					
		solve one-step and two-	solve comparison, sum	solve comparison, sum	calculate and interpret the
		step questions [e.g. 'How	and difference problems	and difference problems	mean as an average
		many more?' and 'How	using information	using information	
		many fewer?'] using	presented in bar charts,	presented in a line graph	
		information presented in	pictograms, tables and		
		scaled bar charts and	other graphs.		
		pictograms and tables.
